

REMARKS

Entry of the foregoing amendments to the specification is respectfully requested. The objectionable phrase "...of Embodiment [number] " is replaced with the more acceptable phrase "according to one embodiment." These amendments are purely of a technical nature, and do not introduce new matter into the specification, or raise any new issues. Moreover, these amendments do not affect the patentability of the allowed claims. Should Examiner Bala feel that any other point requires consideration, then he is cordially invited to contact the undersigned.

Respectfully submitted,

Bristol-Myers Squibb Company
